

Nour Eddine Kharazi

Digital Marketing Specialist | Growth Marketing | Marketing Automation | Data-Driven Strategy

Paris, Ile-de-France, France | +33 7 53 30 32 36 | noureddinekharazi@gmail.com | linkedin.com/in/nour-eddine-kharazi

Available for a permanent role (CDI) from September 2026 - open to positions across France and internationally

PROFESSIONAL SUMMARY

Data, SEO, automation: I turn marketing processes into systems that run themselves. Performance-driven Digital Marketing Specialist with hands-on expertise in CRM, marketing automation, technical SEO and B2B lead generation. I run multichannel campaigns (email, paid search, social ads), build KPI dashboards and analytics tracking (GA4, Looker Studio), and optimise conversion rates end to end. Unlike most marketing profiles, I build my own tooling - automated workflows in N8N, Python pipelines and generative-AI production systems - which lets me ship scalable marketing operations rather than one-off campaigns. Experienced working across international teams in a large industrial group.

CORE SKILLS

Data & Analytics: Google Analytics 4 (GA4), Google Tag Manager (GTM), Looker Studio, Power BI, Tableau, Excel, SQL, Python, KPI tracking, data visualisation, A/B testing, SEMrush, Hotjar

Growth & Acquisition: On-page and technical SEO, SEA, paid ads (Meta Ads, TikTok Ads), conversion rate optimisation (CRO), landing page optimisation, B2B lead generation, inbound marketing

CRM & Automation: HubSpot (CRM and Marketing Hub), Salesforce, Odoo CRM, marketing automation, workflow automation, lead nurturing, lead scoring, email marketing, segmentation

Tools & AI: Prompt engineering, GEO (Generative Engine Optimization), Zapier, Make, N8N, Notion, Shopify, WordPress, Webflow, Contentful, Figma, Canva, ChatGPT, Claude, Gemini

PROFESSIONAL EXPERIENCE

Digital Marketing Manager / Data Marketing Manager

dormakaba France - Paris, France | October 2025 - Present

- Ran multichannel marketing campaigns (email marketing, SEA, social ads), contributing to an 18% increase in ROI over the period.
- Designed and deployed 8 Looker Studio KPI dashboards for real-time marketing performance tracking, turning scattered data into a decision-making tool.
- Automated marketing workflows (N8N, HubSpot) across content production, email campaigns and the SEO chain, cutting the conversion cycle by 20% and reducing lead handling time.
- Built an automated SEO operating system running twice weekly in production: Search Console analysis, AI-search visibility monitoring (GEO), opportunity scoring, content brief generation and weekly reporting.
- Produced optimised SEO content (blog and product pages), driving a 28% increase in organic traffic within 6 months.
- Collaborated with international marketing teams (Spain, Switzerland, Germany, Australia) on group strategy and global campaigns.
- Managed the Contentful CMS for product page and landing page updates and optimisation.

Digital & Growth Marketing Project Manager (Apprenticeship)

SYCON - Paris, France | November 2024 - September 2025

- Built and ran B2B acquisition campaigns via LinkedIn Sales Navigator and email marketing automation, generating a 30% increase in qualified leads over 9 months, tracked through to signed contracts.
- Delivered a full technical SEO audit and implemented the resulting optimisations on a newly launched site with no organic history, achieving a 45% increase in organic traffic.
- Improved UX through behavioural analysis (Hotjar, GA4), lifting user engagement by 20%.
- Implemented and administered the Odoo CRM (segmentation, workflow automation, marketing and sales synchronisation).
- Produced recurring reporting on acquisition, conversion and retention KPIs for stakeholders.
